Serial No. : 09/879,873

Filed : June 11, 2001

For : SCREEN FOR REAR PROJECTION  
TYPE PROJECTOR

Art Unit : Unassigned

Examiner : Unassigned

PRELIMINARY AMENDMENT

Assistant Commissioner for Patents

S I R :

Prior to examination, please amend this application as follows (see attached for details of changes):

IN THE ABSTRACT:

Page 23, replace the ABSTRACT OF THE DISCLOSURE with the following:

A screen for a rear projection type projector includes a main screen formed by bonding a plurality of lenticular lens sheets into one with the edges thereof as a junction plane, and a transmissive diffusion screen for rear use including an image forming layer and a transparent layer arranged behind the main screen on an optical path of light fluxes projected from a projector, wherein the junction plane is located at a position near the center of a main surface of the main screen.
